UTCM Control Panel – Proof of Concept Installation Steps

Prerequisites
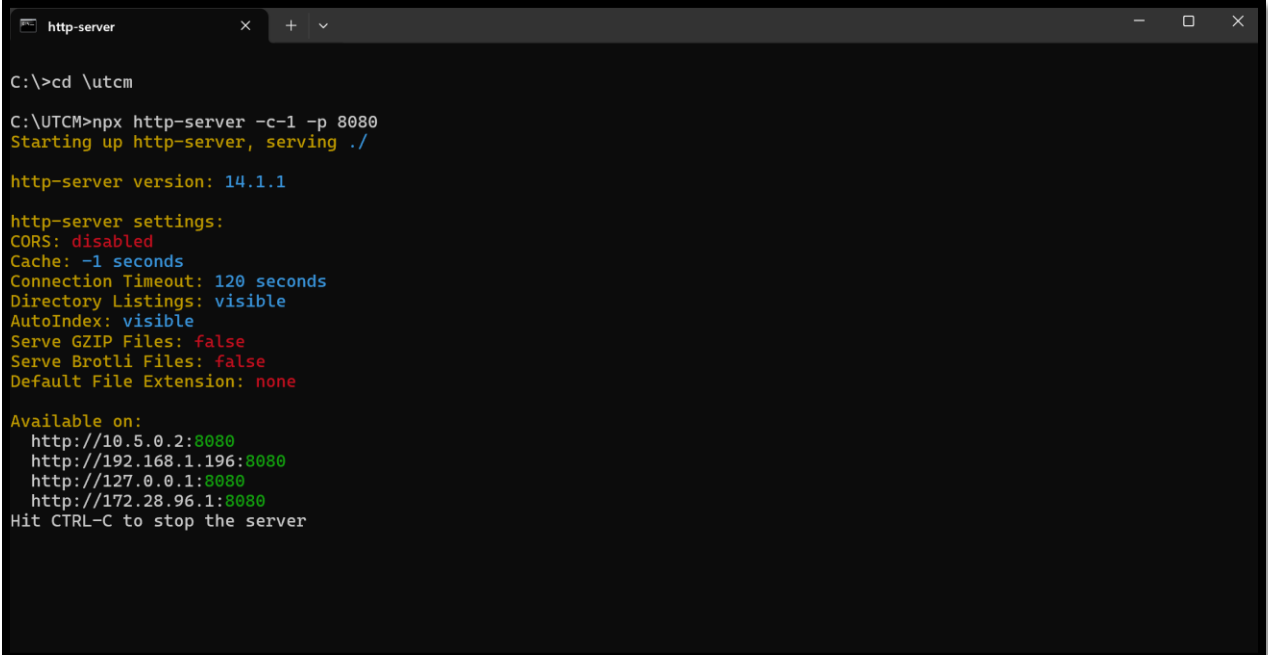

1 – Download and install Node.js on your machine: https://nodejs.org/dist/v22.15.0/node-v22.15.0-x64.msi

2 – Download the UTCM Control Panel files and extract them to C:\UTCM

3 – Open a new console and navigate to C:\UTCM

4 – Execute the following command to start Node.js HTTP Server

```
npx http-server -c-1 -p 8080
```

5 – Open a new browser window and navigate to http://localhost:8080

6 – Click on the **Sign In** button and connect to your tenant
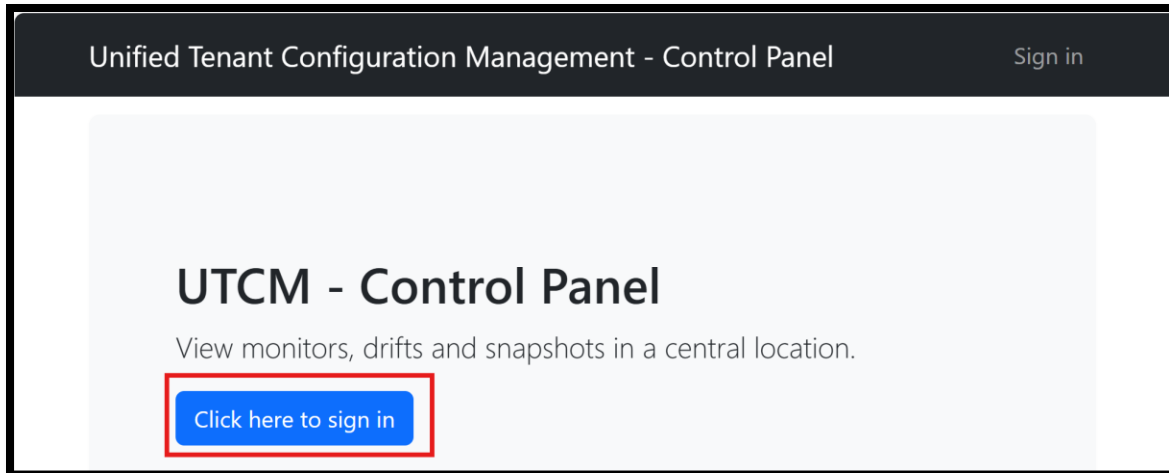

7 – When prompted to grant permissions to the application, check the **Consent on behalf of your organization** box and click Accept.
